

2010 USPS Stamp Petition

Ovarian Cancer Awareness Postage Stamp

We, the undersigned, fully support the proposal initiated in 2001, and requested every year since then, by Carolyn Benivegna. This proposal requests the creation of an Ovarian Cancer Awareness Postage Stamp. The heightened awareness can help save women's lives, and we urge the USPS to do this as quickly as possible. We will collect signatures every year and ask that you sign year after year. There is no deadline because we will continue to send them to the USPS Stamp committee until we have our OvCa awareness postage stamp.
